---

---

## C.V.

---

### PERSONAL STATEMENT

*Hello! I am a Graphic Designer, born and raised in Stockholm, Sweden. I have recently graduated from the University of Cumbria (formerly known as the Cumbria Institute of the Arts) where I've managed to graduate with a First Class BA(Hons) in Graphic Design. I have five years of work experience as a Junior Designer. Corporate Identity and informational design are my two major interests within Graphic Design. In July 2009, I was awarded a membership of the International Society of Typographic Designers (ISTD).*

---

### ABOUT ME

Growing up in central Stockholm has shaped my interest into always taking part of different urban cultures and subcultures. I am always up to date within the latest trends in music, art, fashion, etc and even if I'm not a slave to all the trends surrounding me, I am always fully aware of what is going on. I enjoy going to art-, photo- and design exhibitions, music concerts or even long walks in the forest, always bringing a camera with me as photography is a big hobby of mine. So is printmaking art, when I find the time for it.

P.s. My surname is the German word for Shepherd and it spells Schaefer in countries that doesn't have the letter Ää.

---

### SKILLS
